**The activity of the triune God**

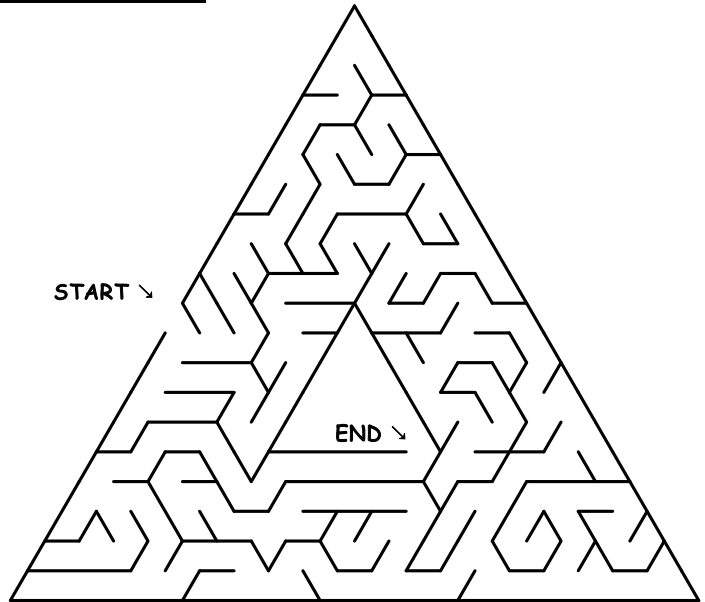

The God who speaks in the Old Testament is the same God who is attested in the New Testament and who acts in the history of the church and the world. In effect, God reveals Himself progressively within the history of salvation. The incarnation of God the Son in Jesus Christ and the revelation of the Holy Spirit at Pentecost are the important stages that lead to knowing the triune God. The doctrine of the Trinity also makes it clear that the nature of God goes far beyond anything that human beings can imagine about God. Its aim is to instruct us in the reverence of God (CNAC 3.2).
