Message:

Jesus Christ comforts His own by assuring them that He is lord over life and death.

Bible text: Acts 20: 12

And they brought the young man in alive, and they were not a little comforted.

Summary

- These miracles of resurrection, which are reported in the New Testament, were a sign that God had power over death and that He is lord over life.
- The people who were raised from the dead had to eventually die.
- These miracles of raising people from the dead are especially comforting in view of the resurrection of the dead.
- At the resurrection we will receive a resurrection body and with it everlasting life in eternal communion with God.
